

International Student Graduation Requirements

We would expect International students to graduate with at least the Recommended High School Program if possible and have as many credits as possible at graduation. Students graduating with less than the Recommended High School Program: are not eligible to graduate with honors; not eligible for the automatic admission of the top 10% to Texas public universities; will have it denoted on their transcript but not on their diploma. Graduating with less than the Recommended High School Program may not prepare a student for entrance into a major university but may prepare him/her for a community or junior college in the United States.

Permission to graduate under a revised high school program must be agreed to in writing and signed by the student, student's parent/guardian and the Head of School or Secondary Principal.

Administrative discretion may be used to meet special circumstances.
