

Dear Parents,

Statistical research has shown that students who participate in academic extracurricular activities score higher on achievement and assessment tests than those who do not participate in such academic programs. Studies have also shown that participants whose parents are actively involved in working with their children in extracurricular academic programs have the greatest success in competition, as well as in their future academic studies.

Brazosport Christian School is excited to host the PSIA competition at BCS on Saturday, February 28, 2026. PSIA is an extracurricular academic program for elementary and middle school students. It offers a wide variety of categories for students to compete in. The top 2 in each category qualify to compete at State in San Marcos on April 18th. Last year we had 17 qualifiers!

The goal is to begin preparing for the competition by Nov 3rd. In order to do so, we need to know how many students are participating. We can enter up to 3 students per category and some categories include more than one grade level. If needed we will have a campus competition to pick the final competitors.

Attached is an information page about the categories offered in the competition. Also, included is an interest form that can be filled out and returned. This interest form also has a place for parents to volunteer to help the program. Please reach out to lsandler@1bcs.org if you have any questions or need more information.

Study material will be provided. If desired, additional study material is available for purchase online at www.psiaacademics.org
